Kelley Labus: We have not been able to find anyone credentialed to do APE in our district. It has been a problem for years. Short of that we have been doing specially designed activities with our regular PE teachers.

Jo-Ellen: Can you re-posted slide with benefits

Kelley Labus: What do you suggest districts do?

deanne I: Do you have any specific activities using guide ropes?

Kelley Labus: This is California. Very rural and remote

cindy daniels: Is there a website to communicate with APE teachers?

Katharine Alley: What was the name of the yoga app for elementary students?

jolanda hengstman: Hi Scott, another resource is www.nc-ape.com, maintained by the NC-Adapted PE-Advisory Council with lots of resources, presentations, videos etc.

Kelley Labus: Yes, we were so excited you are providing these webinars etc.

Malinda Knipfer: So I use the regulations for getting services into the IEP for students, how can I get around the districts (rural) from preventing the PE teacher to attend as they say the OT will provide the services

Tara McCarthy: Hi Tara McCarthy from Chicago, IL. I teach in the western suburbs of Chicago

Kelley Labus: yes! thank you

Jo-Ellen: Can you also re-post the slide what is APE, thanks

Tara McCarthy: We in Illinois have created some social media sites for APE teachers help reach out with questions, comments concerns. <https://sites.google.com/view/icape>

Tara McCarthy: We also created a facebook and twitter page you can follow. <https://twitter.com/ILAdaptedPE>

Todd Fisk: I see a youtube channel called "Adapted Physical Education channel" here https://www.youtube.com/channel/UC2r9DMOa-PoD4JmJbCB2l_A/featured but it doesn't look like its currently active (last video posted 8 months ago -still seems to be a fair amount of resources there)

cindy daniels: Guide ropes can have 2 liter bottles on them and raise and lower them from each end to play a great cardio game.

jolanda hengstman: Lots of great information as well as communication/answering questions etc on Twitter.

deanne I: Thank you!

Todd Fisk: <http://www.ncpeid.org/>

Tara McCarthy: There is a great facebook page call APE specialists. They use great questions to create conversations.

Jo-Ellen: Paralympics has instructional videos (youtube) for sports played within the Paralympics that explains how to engage in different sports including rules and equipment (e.g., goalball)

Todd Fisk: #AdaptedPE hashtag on twitter

Malinda Knipfer: PA

Katharine Alley: As an OT, it concerns me that the OT will take care of adaptive PE. The PT and I consult with the PE teacher for the PE teacher to use the adaptations in the PE classroom.

Tara McCarthy: Remember that OT's and PT's are services related to education. Adapted Physical Education is a Direct service

Jo-Ellen: PA does not

Malinda Knipfer: we do not

Tara McCarthy: OT's and PT's don't typically have educational training

jolanda hengstman: Facebook: CMSAPE

Tara McCarthy: #adaptedpe22

Scott: #APEChatter

Stephanie Faulkner: Please let everyone know that the correct terminology is Adapted not Adaptive...that is taboo and outdated

Malinda Knipfer: I agree Tara but our regs don't stipulate that they cannot do it

Todd Fisk: <https://twitter.com/search?q=%23APEchatter&src=typd>

Tara McCarthy: correct on adaptED versus adaptIVE

Katharine Alley: Thanks for the clarification of Adapted vs Adaptive.

Kelley Labus: will this webinar be archived?

Tara McCarthy: In Illinois we are constantly hit with the OT/PT versus APE conversation

Tara McCarthy: We have used the key words like related versus direct service

Todd Fisk: CTD will post the webinar recording and resources on our web site here within 24 hours here:

Tara McCarthy: We also bring administration back to the teaching qualities versus the therapeutic qualities

Todd Fisk: <https://www.ctdinstitute.org/cafe>

Tara McCarthy: We also have a curriculum that can be found on my GOOGLE SITE

Tara McCarthy: <https://sites.google.com/site/casedupageadaptedpe/home>
